## Objective

To leverage my skills and knowledge as a fresher Python web developer with an MSC IT degree, seeking a challenging position in a reputable organization. I aim to contribute to the development of innovative web applications, utilizing my proficiency in Python, Django, and web technologies. I am dedicated to continuously enhancing my skills, collaborating with a team of professionals, and delivering high-quality solutions that meet client requirements.

## Education

- **PATKAR VARDE COLLEGE** 2023  
MSc(IT)  
9.17 CGPA
- **VIVA COLLEGE OF ARTS COMMERCE AND SCIENCE** 2021  
BSc(IT)  
8.23 CGPA

## Skills

- Programming Language : Python
- Front-End Technologies : HTML5 , CSS3 , JAVASCRIPT
- Framework : Django,Bootstrap
- Databases : MySQL,SQLite
- Libraries : Numpy.Pandas,Matplotlib,Sklearn
- IDEs : VsCode , Pycharm Community
- OOPs concepts & patterns

## Projects

- **E-Vehicle Parking**
  - Engineered a robust Django-based web application to streamline and manage vehicle parking activities.
  - Orchestrated the development of a user-friendly interface using HTML, CSS, and Bootstrap, elevating the overall user experience.
  - Integrated seamless functionalities for storing and retrieving comprehensive details of incoming and outgoing vehicles, including owner names and vehicle numbers, ensuring efficient parking lot operations.
  - Devised and implemented an intuitive dashboard, empowering parking attendants to effortlessly monitor parking availability and generate digital parking tickets.
  - Leveraged Django's powerful backend capabilities to proficiently manage database operations, user authentication, and data processing.
  - Spearheaded the creation of a highly efficient backend using Python and Django, enabling seamless storage and retrieval of data.
- **Seminar Hall Booking**
  - Engineered a web-based seminar hall booking system utilizing the Python Django Framework.
  - Conceptualized and executed an intuitive and user-friendly frontend by designing and implementing HTML, CSS, and Bootstrap.
  - Implemented a robust search functionality, enabling users to effortlessly find available halls based on multiple criteria.
  - Developed features to display comprehensive details and services of each available hall, facilitating informed decision-making for users.
  - Ensured seamless communication between the frontend and backend, facilitating smooth data retrieval and submission processes.

## Interests

---

- Coding
- Web Development
- Machine Learning
- Technology Trends
- Logic Building

## Languages

---

- Hindi
- English

## Hobbies

---

- Watching Movies
- Listening Songs
- Reading Books
- Planting
- Playing Cricket

## Strengths

---

- **Teamwork**  
Collaborating effectively with others to achieve common goals.
- **Leadership**  
Demonstrating Leadership qualities in various contexts.
- **Flexibility**  
Adaptability to changing situations and willingness to learn new things.
- **Creativity**  
Exhibits a creative and innovative mindset, bringing fresh ideas and unique perspectives to problem-solving and project development
- **Effective Communication**  
Demonstrates excellent verbal and written communication skills, enabling clear and concise expression of ideas and efficient collaboration with colleagues.
- **Strong Work Ethic**  
Exhibits a dedicated and diligent approach to tasks , consistently striving for excellence and going the extra mile to achieve goals
